

Overview

We prepare our student for ...

- Energy
- Enthusiasm
- Responsibility
- Skill
- Discipline
- Confidence

- The curriculum of our school lays the foundation for the bright and sound academic future of each and every child from the primary grade only.
- We aim to develop intellectually capable young minds with creative attitudes, healthy bodies and ethical spirits needed to contribute wisdom, compassion and leadership to a global society. With this vision in mind a combination of activities and events were conducted throughout the year to instill in them a spirit of knowing and discovering their strengths and weaknesses to help them to reach their goals.
- The academic year for all grades commences in April and ends in March.
- Admissions are open throughout the year, but are subject to availability. Your child can start school at any time during the academic year except for CBSE grades X and XII.
- As the academic year commences in April, the parents are advised to plan and complete the admission process of their children in advance as the maximum enrollments take place in the month of Jan - Feb.
- Admission is open to all students in our school, who in the schools opinion, will benefit from a challenging international education standard which prepare them for a life of challenge, change and purpose.
- Our school admits students whose academic, personal, social and emotional needs can be met by the school's programs and services and can be integrated into mainstream classroom.
- Our admission counselors look forward to welcoming you in our campus for providing details about the school, curriculum, events and extra-curricular activities.

Thanks for expressing an interest in our school for your ward's schooling.
